

Iron your own Clothes

We have found that the average woman prefers to do her own ironing. The back breaking, scrubbing part she sends to us. When we return it to her carefully and scientifically washed it is ready for the line.

YOU had better try it.

A LITTLE RED SPOT

Novel Experiment by Which It May Be Made to Disappear.

A peculiar feature about psoriasis, the new skin discovery is that no one is asked to buy it without first sending to the Emergency Laboratories No. 32 West Twenty-fifth street, New York City, for an experimental sample and applying same to an affected part of the skin, about the size of a silver dollar. It will clear the spot, so treated in twenty-four hours—a remarkable visual demonstration of its powers.

While psoriasis has been mentioned principally in connection with the cure of eczema, the most stubborn of skin diseases, it must be remembered that when used for itchy, hives, pimples, blotches, acne, itching feet, scalp itching of infants and similar minor skin troubles its action is all the more pronounced, results being seen after an overnight application. As only a small quantity of psoriasis is necessary to cure such cases, a special fifty-cent package, usually sufficient, has been placed on sale at The Lee & Osgood's and Smith's drug store in Norwich, Larue's in Putnam, Woodward's in Danielson and Chesbro's in Willimantic and other leading drug stores throughout the country.

STATE CONFERENCE SPEAKERS

Specialists in their Fields of Activity Have been Secured for the Charities and Correction Convention at Hartford

The advance programme now practically complete of the state conference of charities and correction which is to be held in Hartford at Unity hall, March 1, 2 and 3, has just been issued and has been distributed widely throughout the state among people who, there is reason to expect, will be interested in the work of the conference. The programme is a neat little handbook of about twenty pages and contains, besides the list of topics and speakers for the meetings, the names of the officers and of the members of standing committees of the conference and of the committees who have charge of the arrangements.

As has been announced, Dr. Flavel S. Luther, president of Trinity college, is president of the conference, Mayor Edward W. Hooker of Hartford is one of the vice presidents and there are many well-known names on the committees. The six standing committees of the conference which consider, respectively, the subjects of public health, dependent and delinquent children, public charities, needy families and neighborhoods, defective and law breakers, include in their membership many persons who are specialists in their several fields of activity.

The object of the conference, as stated in the constitution adopted, is to promote a more accurate knowledge of and a wider interest in charitable, reformatory and preventive work, and to provide an opportunity for persons interested in such efforts to compare and discuss principles, methods and results. The conference will not formulate any platform. All resolutions will be referred to the executive committee. All persons interested in the object of the conference are invited to enroll themselves as members. No membership fee is required. The expenses of the conference are met by voluntary subscriptions which may be sent at any time to the treasurer, Walter H. Clark, No. 50 State street, Hartford.

All persons who are interested in the subjects considered by the conference can attend its sessions and take part in the discussion. The invitation is extended particularly to officials of the state government, judges and officers of the courts, county commissioners and sheriffs, to the officers and directors of institutions and societies public and private, for offenders, the insane, the feeble minded, epileptics, the sick, the poor, to the officers and directors of churches, to the officers of civic clubs and societies of boys and girls' clubs, to the clergy of all churches, the editors of newspapers, teachers and instructors and to all citizens who are interested in social progress.

The programmes of the conference sessions, some of which have been published, already, contain a variety of interesting topics which will be presented by able speakers, and it is felt that the meetings will be well worth attending. Charles P. Kellogg of Waterbury is the secretary.

The Opening Session.

At the opening session on Tuesday evening, March 1, the principal address will be delivered by Prof. Graham Taylor of Chicago, the well-known sociologist, formerly a resident of Hartford, and there will also be addresses by Governor Weeks, Mayor E. W. Hooker of Hartford and President Luther of Trinity college, who is president of the conference. The meeting will be followed by an informal reception in lower Unity hall, at which the governor, Mayor Hooker and President Luther will receive the delegates and guests.

It is the purpose of the conference to offer an open forum for the discussion of the charitable, correctional and social problems of the state, with a view to aiding in their gradual solution by stimulating a greater interest in them and disseminating a wider knowledge of them. The entire Unity hall building in Pratt street will be used for the conference and it is expected that several affiliated associations will hold meetings there during the conference days.

Public Health.

The committee on public health, under the direction of its chairman, Dr. R. Lyman of the Wallingford sanitarium, will conduct the session of Wednesday morning, March 2, and is already in communication with the committee on the conference who will help to make this meeting one of the best of the conference. Hastings H. Hart of New York, who is in charge of the children's work for the Russell Sage foundation, has promised to address the session Wednesday afternoon under the direction of the committee on children. The session of this committee, W. G. Fairbank of the Girls' Industrial school at Middletown, is also arranging several sessions for the fuller discussion of problems concerning dependent and delinquent children.

The general session on Thursday morning, March 3, under the direction of the committee on defective children, Dr. Henry S. Noble of the Middletown hospital for the insane, chairman, and the final session of the conference on Thursday morning, under the direction of the committee on lawbreakers, Albert Garvin, warden, both give promise of maintaining the high standard of interest set for the conference.

DIVORCE IN GRANTED

BY JUDGE GREENE

New London Woman Freed from Her Husband—Case of Desmond vs. Otis Completed.

On Thursday in the superior court in this city, Judge Gardiner Greene handed down a decision granting the application for a divorce of Mamie Slomovitz of New London from Joseph Slomovitz of the city on the grounds of desertion and she was allowed to resume her maiden name.

At the opening of court the case of J. J. Desmond vs. Mary Otis and others was resumed, and Mr. Desmond was the first witness. In his testimony he stated that he knew nothing of the western investment of the Davenport stock referred to in the case, until he had been appointed trustee. The condition of the property of Mrs. Albro was spoken of, at the time when he took charge. A. Thatcher Otis testified to his father having charge of the property. Ernest A. Cherry testified to the transferring of Davenport company stock to Mr. Otis when the witness was employed by the company. Judge Brown testified to drawing up papers for the purchase of land in the west by Mr. Otis. The concluding testimony was given by Mrs. Mary G. Otis, who told of her husband's affairs.

The arguments were made by Attorney Comstock, Edmund Perkins, D. G. Perkins and Desmond. Judge Greene took the papers in the case and court was adjourned shortly before three o'clock until this morning for short calendar business.

Frank H. Hinckley, as receiver of the West Mystic Manufacturing company, has filed the inventory of the assets of the company with the clerk of the court, showing the total appraisal to be \$43,962.33.

American investments in Mexico are now estimated at \$700,000,000, and in Cuba at \$135,000,000.

LARGE GATHERING

AT DAIRY INSTITUTE

Many Surrounding Towns Represented and Some of the Best Dairymen in the State Heard.

With a programme which equalled any ever given in New London county, there were 75 present Thursday at the dairy institute given by the Connecticut Dairymen's association in the vestry of the Preston City Congregational church, under the auspices of the Preston City grange. The speakers were all products of the dairymen's teachings and they surpass any in the state in the execution of the doctrines they advocate. All are successful men in their business.

The address of welcome was made by Everett Barnes, master of Preston City grange and the response was made by G. Warren Davis, vice president of the state association. The following subjects were then taken up, the speakers leading the discussions in the several lines of dairy work:

A Successful Rotation System, H. O. Daniels, director Middlesex county; Some Money Crops for Connecticut, H. L. Garrigue, director for Tolland county; Problems on the Cost of Producing Milk, Allowington Market Values for Feed and Labor, J. G. Schwink, Jr., secretary; Financing the Dairy Cow, A. J. Pierpont, director for New Haven county.

Among those in attendance from outside the town of Preston were B. C. Pattison of Torrington, treasurer of the Dairymen's association; Mr. and Mrs. Theodore A. Star, of New Britain; Mr. Waldo and several others from Scotland, C. B. Davis of Franklin, W. B. Browning of Ledyard, J. D. A.

Food Fermenting Causes Indigestion

"I got a box of Mi-o-na tablets for a distress in my stomach, and the dose relieved me, and after I took the fourth I have not felt any more of it. I think it is a wonderful medicine."—Hiram Shultz, Watseka, Ill., July 27, 1909.

If your stomach is out of order or distressed, no matter from what cause, Mi-o-na stomach tablets will give instant relief, and if taken regularly will cure indigestion, acute or chronic, or money back.

Every sufferer from stomach trouble, gas, belching, sour stomach, nervousness, dizziness, and biliousness, should get a fifty cent box of Mi-o-na stomach tablets today and start a treatment.

In three days' time the stomach and bowels will be thoroughly purified, cleaned and renovated, the sourness will go, and pure, sweet breath will take the place of foul breath.

Continue the treatment for two weeks and the stomach will become so strong that it will be able to digest the heartiest meat without distress. A few Mi-o-na tablets will do this. Sold by druggists everywhere and by The Lee & Osgood Co., 1909.

Food's Pills best for constipation, 25c.

Norwich Priests Assisted

At the funeral of Rev. James O. Sheridan at Naugatuck on Thursday morning, Rev. Joseph McCarthy of this city assisted as thurifer and Rev. J. Smith of this city was one of the honorary pall bearers.

The best way to carry Ashes is in a Hod!

Crawford Ranges

Have an Ash Hod in the base into which all the ashes fall far below the fire. They can't bank against the grates and warp them, and they can be emptied easily without spilling.

The Coal Hod is alongside the Ash Hod—out of the way. This feature is a wonderful labor and trouble saver and is patented.

Another trouble-saver of the Crawford is the patented **Single Damper**. One motion—slide the knob to "kindle," "bake" or "check"—the range does the rest. No damper mistakes.

The **Oven** has cup-joint heat flues that heat it alike in all parts.

Ask the Crawford agent to show you and write us for circular.

Walker & Pratt Mfg. Co., 31 Union St., Boston
